

SNACK JARS!

What you will need:

- 1. A jar, tin or container**
- 2. Bones or snacks**
- 3. Liquid glue**
- 4. Mod Podge craft glaze**
- 5. Paintbrush**
- 6. Ribbon**
- 7. Scissors**
- 8. Tag or label**
- 9. Felt pen**

Directions:

- 1. Wash and dry top of jar**
- 2. Place the bones or snacks how you want them to look on top of the lid.**
- 3. Glue down each bone or snack one at a**

time. Use liquid glue, or you can use a glue gun if you have help from an adult. Let it completely dry.

4. Brush Mod Podge onto bones or snacks
Let it completely dry then paint a second coat on. The Mod Podge will look milky white until it completely dries. This will make it look glossy.
5. Write out a tag for your furfriend and tie it onto the jar with a ribbon.
6. Fill the jar with your furfriends favorite snacks!

Keep your furfriend's snack jar up and out of paw's reach. If they eat the snacks on the top of the jar it could make them sick.
