

# BLANKET FOR PUPPY!

## Supplies:

1. A piece of material that is at least 32 inches long and 20 inches wide
2. Scissors, measuring tape, pins
3. Sewing machine or needle and thread

## Directions:

1. Pre-shrink your material by washing and drying it
2. Fold the material in half so there is a front and a back. Cut it so it is 16 inches in length
3. Cut the material so it is 10 inches across in width
4. Turn the material inside out so the colorful sides face in and the faded sides face outward. Pin 3 sides fully and  $\frac{1}{2}$  of the last side.

**5. Sew the three sides together and  $\frac{1}{2}$  of the last side. Turn the blanket inside out.**

**6. Fold the opening closed so the edges are inside. Pin and sew closed.**

**7. If you want to finish off the blanket by sewing around the edges you can, or you can leave it as it is!**

**Cozy, cozy, cozy!**
