

EASTER EGG CRITTERS

SUPPLIES:

1. Eggs: as many as you want to make, plus a few in case some break.
2. Egg colouring kit
3. Google eyes
4. 1 sheet pink felt and 1 sheet pink foam for BUNNY
5. 1 sheet orange foam for DUCK
6. Crafting glue, black felt pen, scissors
7. The empty egg carton

DIRECTIONS:

1. With the help of an adult, hard boil the eggs. Let cool completely.
2. Dye the eggs using the egg colouring kit. Let them dry completely resting in the empty carton.

BUNNY

3. Ears - Draw a set of bunny ears on the pink felt and cut out. Cut a small snip at the bottom of each ear.
4. Feet - Draw a heart about 2.25 inches (5.7cm) wide on the pink foam, then cut it out. Using the black felt pen draw fluff around the edge of the heart for fluffy bunny feet.
5. Glue the ears on the top of the egg. The bottom of each felt ear has a small snip. Fold one flap forward and the other backward. Put a drop of glue onto each flap and press lightly.

This should help the ears stand up straight. Place in egg carton to dry.

6. Put glue near the pointed end of the pink foam heart. Gently press the bottom of the egg onto it for the feet. Place in carton to dry

7. Glue the google eyes on. Let dry in the egg carton

8. Draw on a nose and teeth

DUCK

3. Flippers - On the orange foam draw a triangle about 2.25 inches (5.7cm) across the bottom. Using the black felt pen, draw lines and webs. Cut out the flippers

4. Put glue at the pointed top part, the wide base becomes the flippers. Gently press the egg onto the glue and let dry in the empty egg carton.

5. Beak - Fold the piece of orange foam in half. Draw a small triangle on it using the folded edge as the inside of the beak. . Cut out and place under a heavy book so it will stay folded.

6. Once the beak stays folded, glue it onto the egg. You may have to hold it so it dries in place.

7. Glue google eyes on. Let dry completely in the empty egg carton.

HAVE AN EGGCITING TIME WITH YOUR CRITTERS!
